

Dealerlogic converts process to progress and productivity to profitability.

Dealerlogic looks after every aspect of dealer operations, letting you get on with running a successful business. This Australian-designed software works for independent dealers of all shapes and sizes, whether you sell cars, motorcycles, campervans, trucks or farm equipment.

Dealerlogic is ideal for low or high volume independent dealers, helping you manage, track and report on all aspects of vehicle inventory and can include fully integrated accounting and payroll systems.

Software that looks after every aspect of your dealership operations and administration so that you don't have to.

Save time by using software that allows you to track profit, run reports, and manage accounting and payroll all in one place.

Dealerlogic

With Dealerlogic, start focussing on the success of your business today.

Features:

- Track trades, payouts, GST and complete profit reports.
- Reporting with complete drill down history on sales and purchases.
- Manages your administration with no manual handling and duplication.
- All forms are stored and tracked and can be reprinted at the touch of a button.
- A real-time reporting system that has the ability to reconcile your daily inventory levels and accounts.
- Non-stop client service via online updates and over the phone with friendly professionals.

Benefits:

- Dealerlogic follows the natural flow of your dealership allowing profits to be calculated automatically.
- Save time with the ability to track trades, payouts, GST and get a complete profit report with each and every deal.
- Set the system to deliver your daily, weekly and monthly reporting with a complete drill-down history on sales and purchases for every client and supplier.
- Manage your administration with no manual handling or duplication including the ability to produce contracts, statutory forms and dealer receipts.
- All forms are stored and tracked and can be reprinted at the touch of a button including stock cards, cost estimates, client database, inventory lists, REVs and reconditioning.
- Your business will always comply with the latest industry standards through online updates that reflect the changes in the industry and law.
- To make it even easier, initial training and coaching is available online or in our purpose built training facility as well as ongoing expert online phone assistance and integrated online help.

Enable. Manage. Deliver.
