

Parts Connector

Parts e-Commerce

You can sell your vehicles on eBay, why not your parts?

Dealer Solutions' Parts Connector offers you the ability to reach the online market and upload your parts and merchandise directly into your own personalised eBay Store.

eBay Parts Connector enables dealers to capitalise on the reach, reputation and power of eBay, the largest automotive parts platform in Australia, to sell car parts, accessories, and merchandise online. A simple DMS parts feed can now be transformed into a "set and forget" eBay listing in your own eBay store. Connect with genuine buyers and sell online in a snap using an integrated online parts store that works hand in hand with your website.

Features:

- Upload from a data feed.
- Online interface that can be accessed anywhere, any time.
- Add descriptions for each product only once.
- Access to a library of shared images.
- Listings displayed in featured eBay Stores with a template to promote your branding.
- Categories that suit your products.
- Monitor sales and track customer payments.
- Fast and hassle free transactions through PayPal.

Benefits:

- Your inventory can be uploaded into the Parts Connector via a feed from your DMS to avoid time consuming and cumbersome uploading of individual items one at a time.
- eBay Parts connector is accessed via an online interface that allows you to log in from anywhere, at any time.
- Once an item's description has been saved, that part number's details are available for listing on eBay now and at any time in the future without any further work.
- Select the categories that best suit your part to ensure it shows up each and every time in a relevant search done by customers.
- Your listings will show in your very own featured eBay Store with a template that matches your branding.
- The online eBay interface allows you to easily monitor sales and track customer's payments.

We've already done all the hard work to make selling parts online a snap.
